Wildlife Week 2023: Promoting Conservation Through Competition

As part of Wildlife Week celebrations on October 6, 2023, the Bhoomithrasena club organized a Slogan Writing and Reels competition on the theme "Partnerships for Wildlife Conservation". Anagha Sabu and Jewel Rose George of III B Sc Zoology secured the first and second prizes for the Slogan Writing competition, while Sayana.P.K of II M Sc Zoology received a consolation prize for the Reels Competition. The event aimed to raise awareness about the importance of protecting India's wild animals. Thirty-four students participated in the Programme.

Birds' Summer Care Program: Paravakalkkoruthanneerpathram

The Bhoomithrasena club organized a program titled 'Summer Care for Birds' on March 20, 2024, aimed at keeping our feathered friends cool and hydrated during the hot summer months. The program commenced with an inauguration by Ms. Shyny K Ittiachan, Head of the Department of Physics, and Sr. Danet, Head Accountant, who hung earthen pots filled with water in various locations around the Nazareth Block. They emphasized the importance of showing love and care for the life around us.

Inspired by this initiative, club members decided to place water vessels near their homes to further promote compassion for their fellow creatures. Approximately 20 students enthusiastically joined this endeavor, leading to the discovery of a diverse array of birds in their localities. This campaign aims to raise awareness among students about the significance of every being in nature and the importance of sharing natural resources among them.
